TO ALL MEMBERS OF THE YHMC. RE SECRETARY VACANCY AT 2017 AGM.

Dear members,

After nearly seventeen years as your club secretary I have decided it is time to retire from that position. Club membership has grown and with it additional demands on my available time. Time has become less as I keep losing days and hours, to what I do not know!! There is also the dwindling 'brain power' which is unable to cope with latest technology, most necessary to keep with the changes that are occurring, and would make the secretary duties easier for a 'tech savvy' person. You all think I am younger than my years tell because I still have most of my hair even if it is grey. Frustrations are creeping in.

I believe now is a good time to look at our membership to encourage some new faces on the committee and as we have over 110 members there must be willing workers to make a small commitment to running the YOUNG HERITAGE MOTOR CLUB in the future.

We have a very good club and a big effort has been made to reduce excessive regulation on "H" plate resisted vehicles, as it is your hobby that is protecting our Heritage Motoring.

You own the vehicle, you insure it and pay the registration and you know the rules and the laws of the road - **enjoy your hobby.**

The AGM of the YOUNG HERITAGE MOTOR CLUB will be held on Wednesday 8th March 2017. Have you got a little extra time for your club? **NOMINATE NOW.**

Kind regards,

Peter Kinsela

- Wanted:** **XC twin headlight grill. Contact Pierre 0428 853 013**

January Sunday run to Junee

We left Young Railway station at 9.00 to Wallendbeen for morning tea. Moved on to Junee Roadhouse museum, where everybody enjoyed the displays of engines and carriages etc, particularly the Harmers train loving grandson, Noah Wilson. We had lunch in the park and some others chose to go to the RSL. We headed to the liquorice and chocolate factory for a bit of a taste and a few purchases as well! The shed next door to the liquorice factory, were a collection of cars in original condition along with some trucks. It was also Alan Barrett's birthday on the day. We head back home before the heat set in and all seemed to have an enjoyable time. This who went were: Ian and Carol Well, Mercedes Convertible, ...Christine and David Laybutt, Torana,Peter Kinsela, Mini,Steve Forde, Corolla,Narelle and Alan Barrett, Dodge, Passengers Pam and Les Warren,Jennie and Col Harmer, Holden EH with Passengers Codie and Noah Wilson,Judy and Richard Penalurick, modern and Libby and Charles Plumley, modern.

From the Editors:

I wish the inventor of air conditioning was still alive as I would send him (William Carrier), a note of extreme gratitude. These last few weeks have been very ordinary with the heat. I have been getting up early to start my furniture making out in the shed and by around midday I am at my wits end with the heat. So we have been sitting in the air-con, watching the 'Vikings' TV series and also Outlander. Vikings was certainly blood thirsty and a lot of gore and death and Outlander was not bad either. The future weather forecast does not see much relief so I may need to go and buy some more DVD's.

I was listening to the local news the other day and there was an item where the news presenter spoke about a bus in Sydney hitting a car. She said the bus jammed the brakes on the bus and one passenger ended up in Manly Hospital'...I thought gees must have really jammed them on!

Some of our ads have been in for a while now. Can you let me know if they are still valid?

Anyway that's all from me this month...stay cool.

Angus and Karen

Joke of the month:

Colin phoned the dentist. He said, how much to take a set of wisdom teeth out. The dentist said oh about \$1200. Mmm said col...what if there is no anaesthetic used, well said the dentist that would be very painful...don't worry about the pain mate just how much would that reduce the cost by....well said the dentist, probably down to \$600. Still too dear...what about the stitches...how much are those worth....well said the dentist no stitches would bring it down to about \$200. Mmm Said Col...still a bit expensive...what if you extracted the teeth in the waiting room, no need for cleaning up after in the surgery etc. Well said the dentist if it is just walk in I pull them out, no needles or stitches or anything, well I will do it for \$100. Good said Col...can I book the wife in for tomorrow.

Interesting link for those who play golf.

Young HMC Car Muster will be held on Sunday 30th April2017.

QANTAS

Paddy calls QANTAS to book a flight.

The operator asks, "How many people are flying with you?"

Paddy replies "I don't know! It's your bloody plane.

THIS SIDE OF CARD IS FOR ADDRESS

*Chester Bjorngaard
Maxbass, N.D.*

Dear Sir:—

We're writing this letter to you today because we want to help you get your money out of your Model T.

It's still as good a car as it was the day the new Model A Ford was announced and there's no need to sacrifice it.

The Model T Ford is still used by more people than any other automobile. Eight million are in active service right now and many of them can be driven one, two, three and five years and even longer.

Bring your car to us and let us look it over. You'll be surprised to see how little it costs to put it in tip-top shape.

New fenders, for instance, cost from \$3.50 to \$5.00 each, with a labor charge of \$1.00 to \$2.50. Tuning up the motor and replacing commutator case, brush and vibrator points costs only \$1.00, with a small charge for material. Brake shoes can be installed and emergency brakes equalized for a labor charge of only \$1.25. A labor charge of \$4.00 to \$5.00 will cover the overhauling of the front axle, rebushing springs and spring perches, and straightening, aligning and adjusting wheels.

The labor charge for overhauling the average rear axle runs from \$5.75 to \$7.00. Grinding valves and cleaning carbon can be done for \$3.00 to \$4.00.

A set of four new pistons and rings cost only \$7.00. For a labor charge of \$20 to \$25.00 you can have your motor and transmission completely overhauled. Parts are extra.

Very truly yours,
Bottineau, N. Dak. C. R. GLEASON CO.

May 31, 1927, the last Ford Model T rolled off the assembly line. It was the first affordable automobile, due in part to the assembly line process Developed by Henry Ford. It had a 2.9-liter, 20-horsepower engine and could travel at speeds up to 45 miles per hour. It had a 10-gallon fuel tank and could run on kerosene, petrol, or ethanol; but it couldn't drive uphill if the tank was low because there was no fuel pump. People got round this design fault by driving up hills in reverse.

Ford believed that "the man who will use his skill and constructive imagination to see how much he can give for a dollar, instead of how little he can give for a dollar, is bound to succeed" The Model T cost \$850 in 1909, and as efficiency in production increased, the price dropped. By 1927, you could get a Model T for \$290. "I will build a car for the great multitude," said Ford. "It will be large enough for the family, but small enough for the individual to run and care for. It will be constructed of the best materials, by the best men to be hired, after the simplest designs that modern engineering can devise. But it will be low in price that no man making a good salary will be unable to own one — and enjoy with his family the blessing of hours of pleasure in God's great open spaces."
